# KAKO DA PODESIM RAČUNAR ZA WIRELESS PRISTUP?

OS Windows 8 i 8.1

1. Na početnom ekranu započni pretragu unosom reči **control**.  
Odaberi **Control Panel** kada se pojavi sa leve strane ekrana

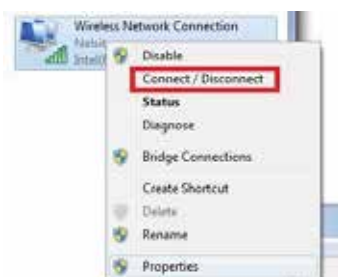

2. Odaberi opciju **Network and Sharing Center**

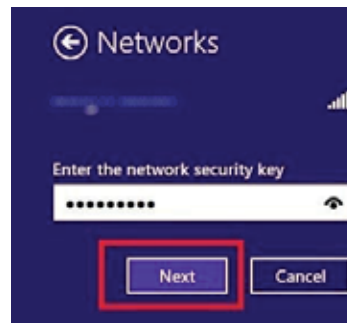

3. Potom izaberi opciju sa leve strane **Change adapter settings**

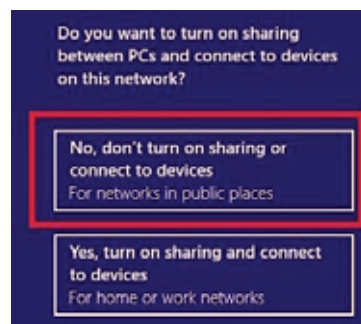

4. Desnim klikom miša na ikonicu **Wireless Network Connection** odaberi **Connect/ Disconnect**

5. Izaberi naziv mreže kreirane na ruteru i u polje **Enter the network security key** unesi lozinku, a zatim klikn na **Next**.

6. U novom prozoru izaberi opciju „**No, Don't turn on sharing or connect to devices**“

7. Uspešno si povezan na svoju WiFi mrežu!
